Lilly Miller	Moss-Out for Roofs & Structures	dry	zinc sulfate	99.0	post

<sup>1</sup>Michelle Le Strange is a Farm and Master Gardener Advisor with the University of California Cooperative Extension in Tulare and Kings Counties.

This list is meant to serve as an aid to the gardening public. ALWAYS consult a UC Pest Note or UC IPM Guidelines for recommendations and read all labels.

Pest Notes can be found at <http://www.ipm.ucdavis.edu>

List is not comprehensive and does not constitute an endorsement. Generic and in-store brands may be available. Product names (trade names) often change.

? means we went on-line and found the product listed with the mfr, but we were not able to download a label to view percentages of active ingredients.

RTU means Ready To Use
