

CWSS: 2021 Student Research Poster Contest

(From the [CWSS Conference Proceedings - 2021](#))

2021 STUDENT RESEARCH POSTER CONTEST

Awarded by Tom Getts, CWSS Student Liaison

This year the California Weed Science Society (CWSS) hosted a Virtual Student Poster Competition. Each student submitted a PDF of their poster and a link to a video where they describe their work. Please take some time to learn more about the exciting weed science research that is happening in California! Here are links to all student posters and the videos: <https://ucanr.edu/p/70554>.

GRADUATE

- 1st Place **Liberty Galvin**, University of California, Davis
California Weedy Rice (*Oryza sativa spontanea*) Emergence Patterns Under Field Conditions, Implications for Management
- 2nd Place **Wenzhuo “Winnie” Wu**, University of California, Davis
Sterile Pollen Technique as a Novel Weed Management Tool
- 3rd Place **Alex Ceseski**, University of California, Davis
Enhanced Metabolism of ALS Inhibitors in *Cyperus difformis*

UNDERGRADUATE

- 1st Place **Gabrielle Celaya-Finke**, California State University, Fresno
Effects of Salinity and pH on Common Waterhemp (*Amaranthus tuberculatus*) Germination
- 2nd Place **Guelta Laguerre**, University of California, Davis
Understanding the Effect of Algaecide Application’s Timing on Early Algae Infestation in California Rice Production

[Tom Getts](#) is a Weed Ecology and Cropping Systems Advisor with the University of California Cooperative Extension.
